NATIONAL CRIME INFORMATION CENTER, TERRORIST SCREENING DATABASE
AND FOR ONPOST OFFENSES**

In the absence of an approved waiver, the Directorate of Emergency Services (DES) will deny unescorted access to Fort Knox to visitors and uncleared contractors based on the results of the NCIC-III and TDSB checks, if they contain credible derogatory information that the individual may present a threat to the good order and discipline or health and safety on Fort Knox. Such derogatory information includes, but is not limited to, the following

1. The NCIC-III contains criminal arrest information of an offense listed below:

a. DES is unable to verify the individual's claimed identity based on the reasonable belief that the individual has submitted fraudulent identity information in the attempt to gain access.

b. Sex offenses (i.e., rape or sodomy, child pornography, trafficking in humans, child molestation, or sexual assault).

c. Weapons or explosives law violations.

d. Current arrest warrant, regardless of offense or violation.

e. Current bar from entry or access to any Federal installation or facility.

f. Status as a registered sex offender.

g. Espionage, sabotage, treason, or terrorism.

h. Felony conviction within the past 10 years, regardless of the offense or violation.

i. Acts or activities designed to overthrow the U.S. Government by force.

j. Suspected of being a terrorist or belonging to an organization with known links to terrorism or support of terrorist activity. (When this capability becomes available to Fort Knox, installation access control personnel will strictly follow the Federal Bureau of Investigation's published engagement protocols.)

2. Military Personnel Barment.

a. Military personnel who receive Other Than Honorable (OTH) discharge will be permanently barred from the installation. The Senior Commander will execute that bar letter when the discharge is approved.

b. Military personnel, separated punitively or administratively, who demonstrate conduct which is of an unacceptable nature for the purpose of continued service should be recommended for a bar from the installation only when the underlying activity poses a threat to peace and security.

c. Military personnel who receive a Chapter 10 discharge will be permanently barred from the installation.

AND FOR ONPOST OFFENSES**

d. Protection from Domestic Violence. Any civilian spouse or parent will be permanently barred if their presence on the installation represents a threat to the safety of any adult or child living on the installation. Application for bars under this category may be initiated by DES, ACS, or other domestic violence protection agencies or advocates.

3. United States Government Civilian Employees. Barred with the provision they may go directly to and from their on-post place of employment only. This workplace access exception does not extend to contractor or non-federal entity employees who must seek relief under Army Directive 2014-05, Policy and Implementation Procedures for Common Access Card Credentialing and Installation Access for Uncleared Contractors, 7 March 2014. Government employee bar letters requesting a total bar from the installation may be issued separately after an individual review by the senior commander.

4. Retirees and Family Members Residing Off Post. In all cases in which a bar is issued, offenders may go directly to and from emergency and scheduled medical appointments.

5. Limited Access Authorization. The DES may authorize limited access to barred individuals for entry to the installation or authorize access to areas other than their place of duty when an extreme hardship or compelling circumstances where no significant risk to the installation is present. This will be done on a case-by-case basis. Requests must be sent to DES, phone 624-4335.

6. All other instances warranting exclusion from the installation must be referred to the senior commander for determination.
