## ATTENTION

### Fall Clean Up Safety

Dust off your leaf blower because your going to need it. Follow some important safety tips below to help you through the leaf pile

- Inspect all of your equipment prior to use
- Remove all the leafs from the outside drains
- Use all applicable personal protective equipment such as eye protection and hearing protection depending on what you are using
- Remember to hydrate even though cooler temperatures are here you can still become ill due to not drinking plenty of water
- When using chain saws and other specialized equipment read the manufactures safety material prior to use

**BE ALERT, STAY ALERT, STAY SAFE!**
