WARNINGS

OPSEC

Nonsecure communication/information exchange is extremely vulnerable to hostile exploitation through monitoring. Do not attempt to talk around a classified or sensitive subject. Accumulated bits of seemingly unimportant information collected through continued monitoring when analyzed can provide Hostile Intelligence Services with vital National Defense Information. (AR 530-1.)

CONTROL OF TELEPHONE USAGE

Unofficial use of DSN, FTS2000, or any other DoD funded telephone system is prohibited. Personnel found fraudulently using DoD telephone systems are subject to be disciplined to the maximum extent possible. Individuals found placing unofficial toll calls will pay for incurred charges.

Third party monitoring of a telephone conversation is prohibited unless all parties give consent (an exception is at Site R where OPSEC monitoring is authorized). This also applies to use of hands-free speaker telephones when more than one person is present at hands-free locations.

DO NOT PROCESS, STORE OR TRANSMIT CLASSIFIED INFORMATION ON NONSECURE TELECOMMUNICATIONS SYSTEMS. OFFICIAL DOD TELECOMMUNICATIONS SYSTEMS INCLUDING TELEPHONES, FACSIMILE MACHINES, COMPUTER NETWORKS, AND MODEMS ARE SUBJECT TO MONITORING FOR TELECOMMUNICATIONS SECURITY PURPOSES AT ALL TIMES. USE OF OFFICIAL DOD TELECOMMUNICATIONS SYSTEMS CONSTITUTES CONSENT TO TELECOMMUNICATIONS SECURITY MONITORING.

DoD Telecommunications Systems, including telephones, facsimile machines, computer networks and modems are provided for the transmission of official government information only and are subject to communications security monitoring at all times. Use of official DoD Telecommunications Systems constitutes consent to communications security monitoring in accordance with AR 380-53.

PENALTIES

It is unlawful to use telephones making an intrastate, interstate or foreign communication as a means of conveying obscene or indecent language or to telephone anonymously another person repeatedly for the purpose of annoying, molesting or harassing such person or his or her family.

The Penal Code of Kentucky, provides that: Any person who willfully refuses to relinquish immediately a party line when informed that

it is needed for an emergency call to a fire department, a police department or for medical aid or ambulance service, is guilty of an offense and subject to a fine or imprisonment or both. The statute defines an emergency as a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential. It is also made an offense subject to the use of a party line by falsely stating that it is needed for such an emergency.

Anyone with intent to defraud, who gives information to the operator or agent of any telephone company so that the charge therefore is made to the account of another without his authorization, shall be liable to fine or imprisonment or both. (KRS 438.160 TO 180 and KRS514.060.)

INSTRUCTIONS FOR PREPARING DA FORM 3938

All telephone and data work other than trouble requires a DA Form 3938 to be submitted. Use outline below to aid in filling out the form. Instruction numbers are keyed to blocks on attached form.

1. Plan your needs and allow as much lead time as possible.

SEE REMARKS

2. Send to: NEC, ATTN: ATZK-IMR-L. Forms may be procured through NEC Publications or an automated form may be used. Forms may be typed or printed and forwarded in one copy.
3. List name and phone number of person with exact knowledge of location and work requested.
4. Install: If request is for a new main line, put 1 in Main Line block. (Always 1 as there can be only 1 main line on any number.) If you want additional extensions of a new line, put the amount needed in the extension block (the two totaled should equal the total number of instruments you need). Need additional extensions of existing number? Put the number needed in the extension block and the telephone number in the lower block. If multiline phone, list all numbers to be installed on the instrument.
5. Remove: Means complete removal of a telephone line/instrument. Care should be taken to let us know if complete telephone number is to be taken out or just extension(s). A 1 by main line will result in removal of number completely, but a 1 by extension means just an extension will be removed. If you want to remove a number from a multiline instrument but leave the number in service elsewhere, indicate appearance after the 1. List telephone number you wish removed in lower block. If removing a multiline instrument, list all numbers on phone.
6. Move: A move can be inside or outside of a building. Tell us if it's a main line or extension(s) you want moved. A move will cover removal and reinstallation of phone in this one column. If multiline phone, list all numbers.
7. Put any additional information or miscellaneous type of work that does not fit anywhere else. Examples: requests for special features, telephone intercoms, loud bells, change ringer, rewiring, etc. Also include in this column justification for new work, class of services (list areas to be accessed), and equipment and systems to be accessed if data request.
8. Put building number, room number or location in building and street name. If new install, leave blank.
9. Put organization, division, branch and section. If new install, leave blank.

10. If new install or move from another building, put building number, location within building and street name. Attach a diagram of location within building.
11. This block must be filled in with complete directory listing (major command, division, section, etc). Indicate whether this number is to be published in telephone directory and telephone information switchboard directory.
12. Fill in at all times. Three classes of service: A1, A2 and C. Within these classes of service are several configuration designed to meet your needs. List areas to be accessed in Block 7 and justification for all Class A service. (Exceptions: work not pertaining to a telephone line, i.e., bells, intercoms, wiring.)
13. Total number of main lines and instruments.
14. Date you submit work request.
15. Name of person requesting service.
16. Signature of Information Management Officer (IMO) or Alternate who has been designated on orders by Commander/Director of organization. Request will be returned if not signed by IMO or alternate.

REMARKS:

Submit one DA Form 3938 for each telephone number to be installed, removed, moved or each miscellaneous job (exception: if moving a multiline instrument within building, one work request will accomplish this if you list all the numbers on the instrument). If you are moving several phones within a building or to another building, attach a diagram of present and proposed locations. (Coordinate large moves with Administrative Telephone Branch. Every effort will be made to simplify paper work.)

Requesting a new A or A2 line or an upgrade? Don't forget to justify and list areas to be accessed (Block 7).

A minimum of 15 days LEAD TIME is required; however, date service required will be subject to slippage depending on equipment availability and contractor workload.

Priorities will be determined on a case-by-case basis. Large moves, renovations, etc., require prior coordination with NEC, Communications Support Branch, and additional lead time.

Help is available for filling out DA Form 3938, using features available on the telephone switch or technical advice.

Call NEC Administrative Telephone Services Branch at 4-2010 or 7110.

DEFENSE SWITCHED NETWORK (DSN)

1. GENERAL:

The Defense Switched Network is the principal long haul voice communications command network within the Defense Communications System, providing nonsecure direct-distance dialing service worldwide through a system of Government-owned and leased automatic switching facilities. The purpose of DSN is to handle essential command and control, operations, intelligence, logistical, diplomatic and administrative traffic.

2. PRECEDENCE:

The Joint Uniform Telephone Communications Precedence System is directed for use by all authorized users of voice communications facilities of the Department of Defense. Calls placed over the DSN system are subject to preemption due to the precedence system. Subscribers at Fort Knox are limited to routine calls (Direct Dial) or priority via operator handled.

3. USE OF THE DSN:

- a. Authorized for official communications only.
- b. Restricted to:
 1. Only those official calls which are essential, requiring a timeliness that cannot be obtained by other means (mail, message) and would stand a scrutiny afforded a commercial toll call.
 2. The minimum time required to accomplish the official business and will not normally exceed five minutes.
 3. The use of precedence level in consonance with the subject matter of the call as established in the Joint Communications Precedence System.
 4. Voice, data and graphics service transmitted via DSN will not exceed a continuous transmission time of 18 minutes, nor a total transmission time of 1 hour per day during normal business hours.
- c. DSN is not authorized for:
 1. Unofficial activities except as defined in AR 25-1.
 2. Calls within an area where other government provided service is adequate, i.e., within a PBX area.

3. Unofficial or personal use.
4. Off-net extension of calls into the commercial system at a distant PBX/PAVX, except when such extension has been previously approved by the local authority controlling the distant switchboard.

4. DSN USER CALLING INSTRUCTIONS:

 1. Verify the DSN number desired.

 - a. Name, grade and telephone number.
 - b. Precedence of Call (limited to Priority).
 - c. City and country to be called, telephone number of unit desired and name or title of person to whom call is directed. Should the city and/or country name be unknown, the information can be obtained by calling the Post Locator, 4-1141, and giving the APO number.
